

# Respons Grand Dimension

---

## Specifications:

Three-way, floor standing, full range bass-reflex design. The cabinet is a 50 mm HD sandwich construction with viscoelastic layer.

1" Scan Speak, Ringradiator

5" Scan Speak, Mid

10" Scan Speak, Bass

Sensitivity: 2,83V 86dB/ m

Nominal impedance: 4 ohm

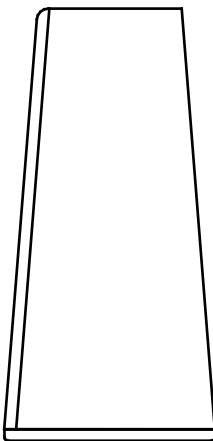

## Frequency response:

28 Hz - 40 kHz

- High frequency response: Full level above 40 kHz

- Echo free: 200 Hz - 20 kHz  $\pm$  1 db

- Low frequency response: -3 db 28 Hz

## Crossover:

Hand-built point-to-point wired crossover specified at 0,5% tolerance

Crossover slopes: 24 db/octave. acoustical

Crossover frequencies: 350hz, 3500hz

## Components:

0,5% tolerance matched propylene capacitors

0,5% tolerance Custom Air cored inductors

Temperature stable resistors

Internal wiring: Custom made

Connection: Rhodium Binding post from Cardas

## Dimensions:

Height: 112,0 cm

Width: 43,6 cm

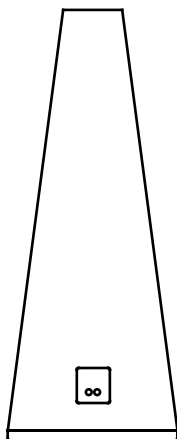

Depth: 54,5 cm

Weight: 85 kg each

Shipping dimensions: 69x58x129cm,

Volume 0,515 m<sup>3</sup>

Shipping Weight: 93 kg

## Cabinet Finishes:

Standard: Cherry

The Grand D can also be ordered in most wood/veneer finishes.
